

FOR IMMEDIATE RELEASE

SUGGESTED HEADLINE: Professional Communications Systems President Tony Stephens Elected President of PSNI Industry Association

TAMPA, Fla., April 23, 2008 --- Professional Communications Systems, Inc. (PCS) has announced the election of its president, Ray A. "Tony" Stephens, to the presidency of Professional Systems Network International (PSNI), an industry alliance of prominent audiovisual, broadcast and multimedia integrators. PCS, headquartered in Tampa, is an affiliate member of the PSNI organization.

Mr. Stephens was inducted as president of the PSNI organization at a meeting held in conjunction with the National Association of Broadcasters (NAB) Conference in Las Vegas. He will serve a two-year term as the organization's president. According to Stephens, "I look forward to working with the PSNI Board of Directors and our many affiliates to continue growing the organization and developing programs that benefit members."

Mr. Stephens has been president and general manager of Professional Communications Systems since 2000. He is also a member of the CEO Council of Tampa Bay, the Greater Tampa Chamber of Commerce Leadership Tampa '08 program, and the University of Tampa Board of Fellows. In addition to PSNI, his involvement with industry organizations includes the National Systems Contractor Association (NSCA) and InfoComm International. He is a graduate of the University of Tennessee and holds a Certified Technology Specialist (CTS) certification from InfoComm.

About Professional Communications Systems (PCS)

Professional Communications Systems has been a leading provider of broadcast and audiovisual consulting, systems integration and equipment solutions since 1985. Headquartered in Tampa, the company is a division of Media General, Inc., owner of numerous television, newspaper and Internet media properties. PCS maintains regional offices in Ft. Lauderdale, Jacksonville, Miami, Orlando and Pensacola, Florida, as well as Albany, Georgia. To learn more about Professional Communications Systems, visit www.pcomsys.com.

About Professional Systems Network International (PSNI)

Founded in 1986, Professional Systems Network International (PSNI) is a one-of-a-kind solution network comprised of a select group of professional audiovisual and broadcast communications systems integrators. The PSNI integrator network represents over 60 locations and is supported by more than 1,685 employees throughout the United States and Canada. PSNI affiliate companies are skilled in designing, fabricating, integrating, servicing and repairing A/V and broadcast components and systems. Each affiliate is an independently owned company with longevity and integrity in its respective market. Collectively the group generates in excess of \$550 million in annual revenue. Visit the Association's website at www.psni.org.
